

# Supporting Students with Medical Needs Policy

---

## Document provenance

This policy was approved by Trustees as follows –

Approver: Education Committee

Date of Approval: September 2020

Executive Leadership Team (ELT) Owner:

Date of Review: December 2022

National Director of Education

*Unless there are legislative or regulatory changes in the interim, this policy will be reviewed every 2 years. Should no substantive changes be required at that point, the policy will move to the next review cycle.*

### Summary of Policy:

This Policy sets out the support offered to those with medical conditions at E-ACT academies and sets out the procedures to be followed for the safe administration of medications, where required.

### Summary of changes at last review:

- Sections of the policy now include specific reference to guidance updated as a result of the Covid 19 pandemic
- Inserted new 2.5 item which includes links to all the Covid 19 guidance cross referenced in the editorial for this policy
- Removed the term System Leader throughout and policy now refers to new role of Regional Safeguarding Lead/s

### Related documents:

# Supporting Students with Medical Needs Policy

## 1. Introduction and Purpose

1.1. E-ACT is committed to ensuring that all students with medical conditions can access and enjoy the same opportunities as any other student and to ensuring that they are able to play a full and active role in academy life, remain healthy and achieve their academic potential.

1.2. E-ACT will ensure that the Academy implements and maintains an effective management system for the administration of medicines to all students in its care in order to ensure that appropriate support is provided to individual students with medical needs.

### 1.3. Scope

1.3.1. This policy applies to all E-ACT staff or volunteers working in or visiting the Academy, including agency or temporary staff.

1.3.2. This policy applies at all times when the student is in or under the care of the Academy, that is:

- 1.3.2.1. in or at the academy<sup>1</sup>;
- 1.3.2.2. on academy organised trips;
- 1.3.2.3. at an academy sporting event.

1.3.3. This Policy shall also apply to students at all times and places in circumstances where failing to apply this policy may:

- 1.3.3.1. affect the health, safety or well-being of a member of the academy community or a member of the public; or
- 1.3.3.2. have repercussions for the orderly running of the Academy

### 1.4. Publication

1.4.1. This Policy is published on E-ACT's trust website. The Academy must link to this policy from its websites.

1.4.2. In addition to publishing a link to this Policy, the Academy must publish key contact details for parents so they can easily get in touch with the Academy about their child's medical needs. This should include contact information for the Individual Health Care Plan Lead at the Academy and details of any health professionals it engages to train and assist academy staff in dealing with medical conditions and administering medicine.

## 2. Legislation and Regulation

2.1. This policy is issued in line with statutory and non-statutory

---

<sup>1</sup> Including onsite at our MH hubs located within our academy provision

guidance relating to Section 100 of the Children and Families Act 2014<sup>2</sup>, which places a duty on proprietors of academies to make arrangements for supporting students at their academy with medical conditions. In meeting the duty, E-ACT must have regard to the guidance issued by the Secretary of State under Section 100.

2.2. This policy is in line with the Department for Education (DfE, 2015) Supporting pupils at school with medical conditions<sup>3</sup> and will be reviewed against any revised recommendations.

2.3. This policy is also in line with:

- 2.3.1. Statutory Framework for the Early Years Foundation Stage;
- 2.3.2. Education (Independent Academy Standards) Regulations 2014;
- 2.3.3. Education and Skills Act 2008;
- 2.3.4. Children Act 1989;
- 2.3.5. Childcare Act 2006;
- 2.3.6. Equality Act 2010;
- 2.3.7. Human Medicines Regulations 2012;
- 2.3.8. Data Protection Act 2018 and General Data Protection Regulation (GDPR).

2.4. This Policy has regard to the following guidance and advice:

- 2.4.1. [Supporting pupils at academy with medical conditions \(DfE, December 2015\)](#);
- 2.4.2. [Automated external defibrillators \(AEDs\): a guide for schools \(DfE, October 2019\)](#);
- 2.4.3. [Guidance on the use of emergency salbutamol inhalers in schools \(Department of Health, March 2015\)](#);
- 2.4.4. [Guidance on the use of adrenaline auto-injectors in schools \(Department of Health, September 2017\)](#);
- 2.4.5. [Guidance on first aid for schools \(DfE, February 2014\)](#);
- 2.4.6. [Mental health and behaviour in schools: departmental advice for academy staff \(DfE, November 2018\)](#);
- 2.4.7. [Medical conditions at academy \(Health Conditions in Schools Alliance\)](#);
- 2.4.8. [Health protection in schools and other childcare facilities \(Public Health England, March 2019\)](#).

2.5. In addition, under the COVID-19 outbreak the following additional guidance has informed this Policy:

- 2.5.1. <https://www.hse.gov.uk/news/first-aid-certificate-coronavirus.htm#>
- 2.5.2. [GOV.UK Coronavirus \(COVID-19\): Guidance for full opening: schools \(August, 2020\)](#)
- 2.5.3. [GOV.UK Guidance for parents and carers on supporting children and young people's mental health and wellbeing during the coronavirus \(COVID-19\) pandemic \(August 2020\)](#)

---

<sup>3</sup> [https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/803956/supporting-pupils-at-academy-with-medical-conditions.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/803956/supporting-pupils-at-academy-with-medical-conditions.pdf)

- 2.5.4. GOV.UK ‘Coronavirus (COVID-19): implementing protective measures in education and childcare settings’  
<https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings>
- 2.5.5. GOV.UK ‘Actions for early years and childcare providers during the coronavirus outbreak’  
<https://www.gov.uk/government/publications/coronavirus-covid-19-early-years-and-childcare-closures/coronavirus-covid-19-early-years-and-childcare-closures>
- 2.5.6. Reference E-ACT expectations around Health and Safety Risk Assessment linked to medical needs. The academy risk assessment is published on each academy website.

### 3. Definitions

3.1. Where the following words or phrases are used in this Policy:

- References to the **Proprietor** are references to E-ACT as the Multi Academy Trust.
- References to an **IHCP** are to an Individual Healthcare Plan, being an agreement between parents, the Academy and healthcare professionals about what care a child needs and how it will be carried out.
- References to **Parent** or **Parents** means the natural or adoptive Parents of the student (irrespective of whether they are or have ever been married, with whom the student lives, or whether they have contact with the pupil) as well as any person who is not the natural or adoptive Parent of the pupil, but who has care of, or Parental responsibility for, the student (e.g. legal guardian).
- References to **school days**<sup>4</sup> mean Monday to Friday<sup>4</sup>, when the Academy is open to pupils during term time. The dates of terms are published on the Academy's website.

### 4. Responsibility statement and allocation of tasks

4.1. The Proprietor has overall responsibility for all matters which are the subject of this Policy.

4.2. To ensure the efficient discharge of its responsibilities under this policy, the Proprietor has allocated the following tasks:

Task	Allocated to	When/frequency of review
Keeping the policy up to date and compliant with the law and best practice	Proprietor	As required, and at least annually

<sup>4</sup> The policy for supporting students' medical needs also applies when students are on site also for Saturday classes or additional intervention sessions during school holiday periods'

Monitoring the implementation of the policy, relevant risk assessments and any action taken in response and evaluating effectiveness	RED/ROD/Regional Safeguarding Lead	As a minimum annually, ideally termly, and as required
Monitoring the systems and management of medical welfare of students to identify whether review or change in welfare practice is needed	RED/ROD/Regional Safeguarding Lead	As required, and at least termly
Seeking input from interested groups (such as students, staff, parents) to consider improvements to the Academy's processes under the policy	Headteacher	As a minimum annually, ideally termly, and as required
Maintaining up to date records of all information created in relation to the policy and its implementation as required by the GDPR	Headteacher	As required, at least termly
Formal Annual Review	Proprietor	Annually

4.3. The Headteacher has formal oversight of the administration of medicine and the arrangements for students with medical conditions within the Academy, including:

4.3.1. ensuring that sufficient numbers of staff are suitably trained and are able to access all relevant information and support materials required to assist students with medical conditions;

4.3.2. ensuring that sufficient numbers of trained staff are available to support student's' medical needs at all times whilst they are under the care of the Academy, including making contingency plans for staff absence and emergency situations;

4.3.3. ensuring that information regarding an individual student's medical condition is shared with appropriate staff (including supply teachers where appropriate) on a need-to-know basis. **Please note - as a result of the COVID-19 outbreak, students will work in consistent groups based on GOV.UK expectations and they may be led by a member of staff who is not their usual classroom teacher. Therefore, all staff who lead a group will be provided with the essential student information (as appropriate) to ensure they can support their well-being. This includes safeguarding, SEND, behaviour and medical needs;**

4.3.4. ensuring that risk assessments take into account the additional

risks posed to individual students as a result of their medical conditions. All students with a risk assessment for a medical condition have had this reviewed by the IHCP Lead or relevant equivalent to ensure it is fit for purpose given the current COVID-19 outbreak. In line with the GOV.UK 'Supporting children and young people with SEND as schools and colleges prepare for wider opening' consideration is also given for the requirement to complete a risk assessment for students with SEND (including those with medical conditions) to determine where their needs can be most safely met (i.e. at home or in academy) together with any additional challenges they may face with the implementation of protective measures;

4.3.5. the overall development and monitoring of IHCPs at the Academy including as delegated through the IHCP Lead.

4.4. The Headteacher may delegate duties as appropriate to the Nicola Billingham and other members of staff who have received training in accordance with this policy. This includes to the most senior member of staff on site at any given time.

4.5. As a result of the COVID-19 outbreak, the academy risk assessment should include a first aid needs assessment to determine the cover required based on the number of students and staff on site. This includes first aid, paediatric first aid and administration of medication (including blood glucose and AAIs).

## **5. Supporting students with medical needs**

5.1. At E-ACT we want to ensure that all of our students in the academy receive the same level of care in relation to their emotional and physical needs, including those children who have particular medical needs. We want parents to be assured that their children's health will be well-looked after at the academy, and this policy sets out the steps that the academy will take to support children with medical needs.

### **5.2. Liaising with parents**

5.2.1. The academy must promote ongoing communication with parents in order to ensure that the specific medical needs of all students in our care are known and met.

5.2.2. Parents must inform the headteacher (or the delegated IHCP Lead) if their child has or develops a medical condition and, where appropriate, provide the academy with appropriate medical evidence and/or advice relating to their child's medical condition.

5.2.3. Where appropriate, parents will be invited to consult with the academy and relevant healthcare professionals in order to produce an IHCP for their child. A template letter to parents can be found in Appendix 1. **Please note - in the context of Covid 19 the consultation may take the form of a remote meeting. This will be determined on an individual basis.**

- 5.2.4. Parents should also inform the headteacher (or the IHCP Lead) in writing where their child will require either prescription or non-prescription medication to be taken at the academy and of any changes to the medication required.
- 5.2.5. E-ACT requests that medication is only taken at academy if it is essential, that is where it would be detrimental to the student's health not to administer the medication during the academy day. Where possible, medicines should be taken at home, before and after attending the academy.
- 5.2.6. Unless in exceptional circumstances, staff at the academy will not administer any medication to a student without obtaining prior written permission from his or her parents. This requirement will not prevent a child of sufficient understanding and intelligence to understand fully what is proposed, from giving or withholding consent to medical treatment or from seeking advice or treatment in confidence. **If administration is required, the member of staff will apply PPE for the purposes of the administration to support the implementation of protective measures.**
- 5.2.7. For early years' foundation stage (EYFS) students, staff will ensure that parents are informed in writing on the same day (or as soon as reasonably practicable thereafter) of every occasion that medication is administered, or has not been administered, with an explanation as to why.

### 5.3. Individual Health Care Plans (IHCPs)

- 5.3.1. The academy will focus on the on the needs of each individual student and how their medical condition impacts on their academy life, including how the medical condition impacts on a student's ability to learn and their well-being and will take steps to help increase their confidence and ability to self-care. **Please note - in the context of Covid 19, all cases for student's with medical conditions that classify them as 'extremely clinically vulnerable' or 'clinically vulnerable' will be reviewed on a case by case basis with appropriate medical evidence.**
- 5.3.2. Where a student has long-term or complex medical condition or health needs, the academy will, where appropriate, produce an IHCP for that student. A template IHCP is set out in Appendix 2.
- 5.3.3. The IHCP will be prepared following consultation with the parents, the student (where appropriate) and academy nurse and/or any other relevant healthcare professionals.
- 5.3.4. Where appropriate, the IHCP should be linked with a student's Education, Health and Care Plan (EHCP). Where a student has SEND but does not have an EHCP, their SEND should be mentioned in their IHCP.
- 5.3.5. The IHCP will be presented to the parents for approval in writing prior to its implementation to ensure the academy holds accurate information about the medical condition of any student with long term needs.

5.3.6. Once the IHCP is approved the Headteacher (or the delegated IHCP Lead) will be responsible for its maintenance and implementation.

5.3.7. The IHCP will be reviewed at least annually or more frequently where a student's needs change. Parents must inform academies of new or changing medical needs of their child so that such reviews can happen quickly where circumstances change.

## **6. Administering medicines**

6.1. Where a student requires supervision to take their medication or where such medication will be administered by staff, students receiving medication should be made aware of when and where they should attend at the prescribed times during the course of the medication to receive their treatment. **Please note, Covid 19 - these timings will be agreed in line with the updated staggered academy day in consultation with the student and parent/carer as we return students back from September 2020 onwards and adhere to the risk assessments in place in each academy.**

6.2. With the exception of insulin, which may be provided in an insulin pen or pump, all medicines supplied to the academy by parents must be provided in the original container as dispensed by the pharmacist and include the prescriber's instructions for administration. Staff administering medication will check the student's name, the name of the medication, the prescribed dose, the expiry date, the method of administration, the time/frequency of administration, any side effects and the written instructions on the container before providing the medicine to the students.

6.3. Staff administering medicines must be supervised by another member of staff who will check all details set out in 4.2 above.

6.4. If staff are in any doubt over the procedure to be followed, the parents will be contacted before action is taken.

6.5. If a student refuses their medication, staff will record this and report to parents as soon as possible.

### **6.6. Medical records and consent**

6.6.1. Parents of all students at the academy are required to complete the relevant parental agreement to administer medicine at Appendix 4 and/or Appendix 5 before medication is administered to their child.

6.6.2. Staff administering medicines will sign the records at Appendix 6 each time a medicine is administered. Written records of all medication administered to every student are retained by the Academy and relevant records can be provided, subject always to the law on data protection, to parents on request. These records are regularly reviewed by the Headteacher termly with Appendix 6 and Appendix 7 (overview of students receiving medication) is signed to confirm this.

### **6.7. Prescription and non-prescription medication**

6.7.1. As a general rule, staff will not administer any medication that has not been prescribed for that particular student by a doctor, dentist, nurse or pharmacist.

6.7.2. The Academy will hold and store spare AAIs (adrenalin auto-injectors), and, if a student has been identified as at risk from anaphylaxis as per their IHCP, an appropriately trained member of staff will administer the AAI in the case of an emergency.

6.7.3. Staff may only administer certain non-prescription medication such as pain and fever relief if the parents have already provided their written consent for this to happen in relation to specific medicines and only if there is a health reason to do so. Parents will be asked to sign Appendix 5 to confirm their agreement to staff administering such medication and to confirm that the student has not suffered an adverse reaction to the medication in the past.

6.7.4. No student shall be given medicine containing aspirin unless prescribed for that particular student by a doctor.

## **6.8. Self-medication**

6.8.1. E-ACT recognises that students should be allowed to carry their own medicines and relevant devices (such as inhalers), wherever possible or should be able to access their medicines for self-medication quickly and easily.

6.8.2. Following consultation between the Academy, parents and the student, a student will be permitted to store and carry their own medication if in the opinion of the Headteacher/IHCP Lead or relevant medical professional that they are sufficiently competent to do so. This will be reflected in a student's IHCP.

6.8.3. The Academy will also consider the safety of other children and medical advice from the prescriber in respect of the student in reaching this decision.

6.8.4. Students will be made aware the medication is strictly for their own personal use and it should not be passed to any other students under any circumstances and to do so is a breach of academy rules.

## **6.9. Storage of medication**

6.9.1. Medicines are always securely stored in accordance with individual product instructions.

6.9.2. The Academy will carry out a risk assessment to consider any risks to the health and safety of the academy community and put in place measures to ensure that identified risks are managed and that medicines are stored safely.

6.9.3. All medicines shall be stored in the original container in which they were dispensed, together with the prescriber's instructions

for administration.

- 6.9.4. Emergency medication such as inhalers, AAIs and blood glucose testing will be kept in a designated location, clearly marked, and if kept in a box or cupboard this must not be locked in order to allow immediate access. In the case of medication, which is not required in an emergency, the student will be told where their medication is stored and who holds the key.
- 6.9.5. Students who do not carry and administer their own medication understand which members of staff will administer their medication.
- 6.9.6. If a student is prescribed a controlled drug, unless otherwise agreed as part of an IHCP, it will be kept in safe custody in a locked, non-portable container and only named staff and the student will have access. A record of any doses used and the amount of the controlled drug held at the Academy will be maintained within Appendix 6 with the Headteacher responsible for ensuring this is the case.
- 6.9.7. For students who are permitted to access a controlled drug on site as per their IHCP and medical advice they will be advised that it is an offence to pass the drug to any other person for use.
- 6.9.8. Parents should collect all medicines belonging to their student at the end of each term and are responsible for ensuring that any date-expired medication is collected from the Academy. In the event that this is not collected in a timely manner by parents it will be safely and securely disposed of by the Academy.

## **6.10. Emergencies**

- 6.10.1. In the event of an emergency related to the administration of medicine, the designated trained staff member should be called as soon as possible, if not already present. If it is determined that they are unable to deal with the presenting condition, then they should continue any first aid or medical procedures being provided whilst another person summons emergency medical care. This does not however affect the ability of any person to contact the emergency services in the event of a medical emergency. Staff should always dial 999 for the emergency services in the event of a serious medical emergency before implementing the terms of this policy and make clear arrangements for liaison with the ambulance services on the Academy's site.
- 6.10.2. Parents authorise the Headteacher to consent on their behalf to the student receiving emergency medical treatment where certified by an appropriately qualified person as necessary for the student's welfare and if parents cannot be contacted in time.
- 6.10.3. A checklist for contacting the emergency services can be found in Appendix 8.

## **7. Access to external medical services**

- 7.1. Students have access to local medical, dental, optometric and other specialist services or provision, as necessary.
- 7.2. Should there be a concern that a student is not being supported to access external medical services as a result of potential neglect then the Academy's Child Protection and Safeguarding Policy will be applied.
- 7.3. Written permission/evidence for external medical services will be required by the Academy.

## **8. Automated external defibrillators (AEDs)<sup>5</sup>**

- 8.1. The Academy's AED(s) is /are located at the school Office.
- 8.2. The AED should only be used where a person is in cardiac arrest. It should not be used where a person is conscious, breathing and / or his or her heart is still beating.
- 8.3. If a person is suffering from a cardiac arrest, the first person on the scene should immediately call the emergency services and commence CPR. If possible, a member of staff who is trained in the use of AEDs should be called for. However, AEDs are designed to be used by any person by following the step-by-step instructions on the AED.
- 8.4. The person administering the AED should ensure that the area around the casualty is clear before administering the AED. They should then stay with the casualty until the emergency services arrive.

## **9. Asthma register and emergency inhalers<sup>6</sup>**

- 9.1. The other requirements of this Policy apply to emergency inhalers, including but not limited to appropriate training, use, supply, storage, care, disposal and record keeping.
- 9.2. Miss Nicola Billingham and Mrs Mahony are responsible for ensuring that the Department of Health (DH 2015) *Guidance on the use of emergency salbutamol inhalers in schools<sup>7</sup>* (**Inhalers Guidance**) is properly implemented and followed.
- 9.3. General information on how to recognise and respond to an asthma attack is contained in the guidance referred to in the Inhalers Guidance as above.
- 9.4. The First Aid Lead will hold and be responsible for restocking emergency inhalers (which may be bought without prescription). There is no prescribed amount and will depend on practice and size of the Academy. An emergency inhaler may be used if a student's prescribed inhaler is not available (for example, because it is broken, or empty) or in the event of an asthma attack.
- 9.5. Only students who have been diagnosed with asthma and /or who have been prescribed a reliever inhaler may use an emergency inhaler. The IHCP Lead will maintain an up to date register

---

<sup>5</sup> It is not compulsory for academy's to have AEDs and it does not currently form part of the EFAW or FAW courses but if there is an AEDS at the Academy it is recommended that staff are given instruction/training see DfE guidance <https://www.gov.uk/government/publications/automated-external-defibrillators-aeds-in-academys>

<sup>6</sup> See Inhalers Guidance: keeping an emergency inhaler (and adopting the procedures in the Inhalers Guidance) is optional but recommended.

<sup>7</sup> [https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/416468/emergency\\_inhalers\\_in\\_academys.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/416468/emergency_inhalers_in_academys.pdf)

of students who have been diagnosed with asthma and /or who have been prescribed a reliever inhaler and in respect of whom parental consent to the use of the emergency inhaler has been obtained. The register should be reviewed regularly (at least termly) to take into account students' changing asthma care needs. A copy of the register is to be stored with the emergency inhalers.

- 9.6. Parents are to notify the academy as soon as possible that a particular student has been diagnosed with asthma and / or has been prescribed a reliever inhaler. Notification should be accompanied by a completed consent form signed by the parents in the form set out at Annex B of the Inhalers Guidance (a copy of which is available from the Academy on request. Completed consent forms should be stored on the student's file and, where appropriate, the ICHP updated accordingly.
- 9.7. If an emergency inhaler is used by a student the Academy will notify the parents as soon as practicable.
- 9.8. Emergency inhalers are also to be stored, cared and disposed of in accordance with Part 3 of the Guidance.

## 10. Adrenaline auto-injectors<sup>8</sup>

- 10.1. General information on how to recognise and respond to an anaphylaxis is contained in the Guidance on use the adrenaline auto-injectors in academies<sup>6</sup>.
- 10.2. Delays in administering AAIs have been associated with fatal outcomes. **AAIs MUST be administered without delay** to students if there are **ANY signs of anaphylaxis present** to those students who are known to be at risk of anaphylaxis, for whom both medical authorisation and consent for the use of AAIs have been provided.
- 10.3. **Academy staff must always call 999 and request an ambulance if an AAI is used** and keep a detailed record including, where the reaction took place and how much medication was given. The parents should be informed as soon as possible.
- 10.4. The Headteacher and First Aid Lead are responsible for ensuring that the Guidance on the use of adrenaline auto-injectors in academies<sup>6</sup> (**the AAI Guidance**) is properly implemented and followed.
- 10.5. AAIs are to be stored, cared and disposed of in accordance with Part 3 of the AAI Guidance and the other requirements of this policy apply to AAIs, including but not limited to appropriate training, use and record keeping.
- 10.6. The First Aid Lead will have overall responsibility for restocking AAIs (which may be bought without prescription). There is no prescribed amount and will depend on practice and size of the Academy. The First Aid Lead and appropriate deputy will check the stock on a monthly basis to ensure that the AAIs are present and in date and that replacement AAIs are obtained in good time.<sup>9</sup>

---

<sup>8</sup> See <https://www.gov.uk/government/publications/using-emergency-adrenaline-auto-injectors-in-academy>s

- 10.7. Spare emergency AAIs should only be used on students who are known to be at risk of anaphylaxis, for whom both medical authorisation and consent from parent/carer for the use of emergency AAIs have been provided.
- 10.8. The IHCP Lead will maintain an up to date register of students at risk of anaphylaxis this includes students who have been prescribed an AAI and those who have been provided with a medical plan confirming this, but who have not been prescribed AAI and in respect of whom parental consent to the use of the spare AAI has been obtained. The register should be reviewed regularly<sup>10</sup> (at least termly) to take into account pupils' changing needs. A copy of the register is to be stored with the spare AAIs.
- 10.9. Parents are to notify the Academy as soon as possible that a particular student is at risk of anaphylaxis and in that case provide their consent to use the spare emergency AAIs. Completed consent forms should be stored on the student's file and, where appropriate, the ICHP updated accordingly.

## **11. Off-site visits and sporting events**

- 11.1. Please refer to the E-ACT Educational Trips and Visits Policy.
- 11.2. The academy actively supports all students with medical conditions to access and enjoy the same opportunities at the academy as any other student, which includes ensuring that they are able to take an active role in academy trips and sporting activities, unless it is contraindicated by a medical professional involved in a student's care (such as his or her GP).
- 11.3. If a student attending an off-site visit or sporting event cannot self-medicate, they will be accompanied by a member of staff who has received appropriate training to administer the medication in accordance with this policy.
- 11.4. All students requiring preventative medicine (particularly for sport), if sufficiently competent to self-medicate, are responsible for carrying their medication with them. If not sufficiently competent, a member of staff shall carry the medication, individually labelled.
- 11.5. Secure storage for medicines will be available at all short-term accommodation used by the Academy.

## **12. Unacceptable practice**

- 12.1. Staff should use their discretion and training with regards to each individual student's medical needs, by reference to their IHCP and / or EHCP, as appropriate.
-

12.2. However, staff should be aware that the following practices are generally unacceptable:

- preventing access to medication and relevant devices (such as inhalers), where this is reasonably required;
- assuming that all students with the same conditions require the same treatment;
- frequently sending students with medical conditions home or preventing them from taking part in normal academy activities, unless this is provided for in their IHCP or by their medical advisors;
- sending unwell students unaccompanied to the academy office or medical room;
- penalising students for their attendance record, if their absences are related to their medical condition (e.g. hospital appointments);
- preventing students from drinking, eating or taking toilet or other breaks when required to enable them to manage their medical condition effectively;
- requiring parents, or otherwise making them feel obliged, to attend the Academy to administer medication or otherwise provide medical support to their child during the academy day;
- preventing students from participating in or creating unnecessary barriers to children participating in all aspects of academy life.

### 13. Training

13.1. The academy will ensure that there is a minimum of at least two members of staff who are appropriately trained to manage medicine as part of their duties.

13.2. The Headteacher is responsible for the administration of medicine and the arrangements for students with medical conditions within the Academy. They will delegate duties as appropriate to other members of staff (namely First Aid Lead/IHCP Lead/IHCP Practitioner/First Aiders) who have received appropriate training in order for them to complete their duties.

13.3. The Headteacher will ensure that all staff are supervised where appropriate. Any staff responsible for the administration of medicine will have access to students' IHCPs.

13.4. Relevant members of staff will receive appropriate training and support from a qualified health professional, including training on the side effects of medication and what to do if they occur. If the administration of medication involves technical, medical or other specialist knowledge, appropriate individual training tailored to the individual student will be provided to appropriate staff by a qualified health professional (i.e. blood glucose monitoring/AAIs etc.).

13.5. A template for providing written confirmation that the member of staff

is proficient in the procedure is available in Appendix 3.

- 13.6. Staff must not give prescription medicines or undertake health care procedures without appropriate training. For the avoidance of doubt a first aid certificate does not constitute appropriate training in supporting students with medical conditions for all circumstances.
- 13.7. All staff will be made aware of the terms of this policy and the Academy's arrangements for supporting students with medical conditions and their role in implementing the terms of this Policy.
- 13.8. The academy has additional awareness training in place to deal with common medical conditions such as anaphylaxis, asthma, epilepsy and diabetes.
- 13.9. The academy is required to either adopt the Medical Conditions at Academy guidance and protocols or have their own drafted by a medical professional and have these approved by the Regional Education Director.
- 13.10. All new starters will be made aware of the terms of this policy and appropriate protocols during their induction.

#### **14. Risk assessment**

- 14.1. Where a concern about a student's welfare is identified, the risks to that student's welfare will be assessed and appropriate action will be taken to reduce the risks identified.
- 14.2. The format of risk assessment may vary and may be included as part of the Academy's overall response to a welfare issue, including the use of individual student welfare plans (such as behaviour, healthcare and education plans, as appropriate). Regardless of the form used, the Academy's approach to promoting student welfare will be systematic and student focused.
- 14.3. The Headteacher has overall responsibility for ensuring that matters which affect student welfare are adequately risk assessed and for ensuring that the relevant findings are implemented, monitored and evaluated.
- 14.4. Day to day responsibility to carry out risk assessments under this policy will be delegated to the First Aid Lead/IHCP Lead who has been properly trained in, and tasked with, carrying out the particular assessment.
- 14.5. Where the medical condition could give rise to potential safeguarding concerns, the Academy's Child Protection and Safeguarding Policy will be followed as appropriate. Staff are particularly reminded to be alert to indicators of physical/sexual abuse, sexual violence and female genital mutilation where in each case there are specific reporting procedures in place.

#### **15. Record keeping**

- 15.1. All records created in accordance with this policy are managed in accordance with the Academy's policies that apply to the retention and destruction of records.
- 15.2. Staff administering medicines will complete and sign the records at Appendix 6 each time a medicine is administered.
- 15.3. Written records of all medication administered to every student are retained by the Academy and relevant records can be provided, subject always to the law on data protection, to parents on request. These records are regularly reviewed by the Headteacher.
- 15.4. The records created in accordance with this policy may contain personal data. The Academy has a number of privacy notices which explain how the Academy will use personal data about students and parents. The privacy notices are published on the Academy's website. In addition, staff must ensure that they follow the Academy's data protection policies and procedures when handling personal data created in connection with this Policy.

## **16. Responsibilities**

- 16.1. The Board of Trustees has overall accountability for this Policy.
- 16.2. The National Director for Education has overall responsibility for ensuring implementation and compliance within all E-ACT academies, supported by the Regional Education Directors/Regional Operations Directors who have delegated responsibility for implementation and compliance within their regions.
- 16.3. The Regional Safeguarding Leads are responsible for monitoring compliance within their region, challenging the Academy (and Headteacher) on fulfilling their duties in relation to this policy and providing support and advice on implementation where necessary.
- 16.4. The Regional Safeguarding Leads are also responsible for rapidly escalating any serious concerns regarding non-compliance to the Regional Education Director, or to the National Director for Education.
- 16.5. The Headteacher is responsible for:
  - 16.5.1. Ensuring that sufficient numbers of staff are suitably trained and are able to access all relevant information and teaching support materials required to assist students with medical conditions;
  - 16.5.2. Ensuring that cover arrangements are in place to meet individual children's need in the event of staff absence (cover arrangements must be in writing and easily available to relevant staff and, on request, parents);
  - 16.5.3. Ensuring that sufficient numbers of trained staff are available to support students' medical needs at all times whilst they are under the care of the Academy, including making contingency plans for staff

absence and emergency situations;

16.5.4. Ensuring that information regarding an individual student's medical condition is shared with appropriate staff (including supply teachers where appropriate) on a need to know basis;

16.5.5. Ensuring that risk assessments take into account the additional risks posed to individual students as a result of their medical conditions;

16.5.6. The overall development and monitoring of Individual Healthcare Plans (IHCP) at the Academy.

## **17. Complaints**

17.1. If parents or students are dissatisfied with the medical support provided at the Academy, they should raise these in the first instance with the Headteacher.

17.2. If the Headteacher cannot resolve the issue then a formal complaint can be raised via the Complaints and Concerns Policy.

## **18. Review**

18.1. This Policy will be reviewed every two years. The Headteacher must review the information supporting this Policy (website, procedures, etc.) annually to ensure that it is up-to-date and accurate.

**Nechells Primary E-ACT Academy**  
**Administration of medicines**  
**supporting pupils with a**  
**Medical Condition Policy**

Review: September 2021

## 1 Policy statement

1.1 This policy applies to all students at **Nechells Primary E-ACT Academy**.

1.2 This policy is addressed to all staff and is available to parents on request.

1.3 This policy should be read in conjunction with the first aid policy.

### 1. Aims

1.1 E-ACT and the Local Governing Body of the Academy are committed to ensuring that all students with medical conditions can access and enjoy the same opportunities at the Academy as any other student and to ensuring that they are able to play a full and active role in school life, remain healthy and achieve their academic potential.

1.2 E-ACT and the Local Governing Body of the Academy will also ensure that the Academy implements and maintains an effective management system for the administration of medicines to all students in our care in order to ensure that the Academy provides support to individual students with medical needs.

## 2. Responsibilities

2.1 Mrs Leanne Mahony, the Headteacher, is responsible for:

ensuring that sufficient numbers of staff are suitably trained and are able to access all relevant information and teaching support materials required to assist students with medical conditions;

ensuring that sufficient numbers of trained staff are available to support students' medical needs at all times whilst they are under the care of the Academy, including making contingency plans for staff absence and emergency situations;

ensuring that information regarding an individual student's medical condition is shared with appropriate staff (including supply teachers where appropriate) on a need to know basis;

ensuring that risk assessments take into account the additional risks posed to individual students as a result of their medical conditions;

the overall development and monitoring of Individual Healthcare Plans (**IHCP**) at the Academy.

### **3. Liaising with parents**

3.1 The Academy promotes ongoing communication with parents in order to ensure that the specific medical needs of all students in our care are known and met.

3.2 Parents must inform the Headteacher, Mrs Leanne Mahony, if their child has or develops a medical condition and, where appropriate, provide the Academy with appropriate medical evidence and / or advice relating to their child's medical condition.

3.3 Where appropriate, parents will be invited to consult with the Academy and relevant healthcare professionals in order to produce an IHCP for their child. A template letter to parents can be found in Appendix 4.

3.4 Parents should also inform the Headteacher, Mrs Leanne Mahony or Medical Lead, Miss Nicola Billingham, where their child will require prescription medication to be taken at Academy and of any changes to the medication required.

3.5 The Academy requests that medication is only taken at school if it is essential and detrimental to the student's health not to administer the medication during the school day. Where possible, medicines should be taken at home, before and after attending the academy.

3.6 Staff at the Academy will not administer any medication to a student without obtaining prior written permission from his or her parents. This requirement will not prevent a child of sufficient understanding and intelligence to understand fully what is proposed, from giving or withholding consent to medical treatment or from seeking advice or treatment in confidence.

3.7 Unless in exceptional circumstances, no student under the age of 16 will be given prescription medication without parental consent.

#### **EYFS only**

3.8 Staff will ensure that parents are informed on the same day or as soon as reasonably practicable in respect of every occasion that any medication is administered and, for any reason, medication has not been administered parents will be informed and will be given an explanation.

### **4. Individual Health Care Plans**

4.1 The Academy will focus on the on the needs of each individual student and how their medical condition impacts of their school life, including how the medical condition impacts on a student's ability to learn and will take steps to help increase students' confidence and ability to self-care.

4.2 Where a student has long-term or complex medical condition or health needs, the academy will, where appropriate, produce an IHCP for that student.

4.3 The IHCP will be prepared following consultation with the parents, the student (where appropriate) and School nurse and / or any other relevant healthcare professional.

4.4 Where appropriate, the IHCP should be linked with a student's statement of Special Educational Needs (**SEN**) and / or Education, Health and Care Plan (**EHC**). Where a student has SEN but does not have a statement or EHC, where appropriate their SEN should be mentioned in their IHCP.

4.5 The IHCP will be presented to the Parents for approval prior to its implementation to ensure the Academy holds accurate information about the medical condition of any student with long-term needs.

4.6 Once the IHCP is approved the Medical Leader, Miss Nicola Billingham, will be responsible for its maintenance and implementation.

4.7 The IHCP will be reviewed at least annually or more frequently where a student's needs change.

## **5. Training**

5.1 The Academy will ensure that there are members of staff who are appropriately trained to manage medicine as part of their duties.

5.2 The Headteacher, Mrs Leanne Mahony, is responsible for the administration of medicine and the arrangements for students with medical conditions within the academy. She will delegate duties as appropriate to the Medical Lead, Miss Nicola Billingham, or other members of staff who have received training in accordance with section 5.4 below.

5.3 The Headteacher, Mrs Leanne Mahony and Medical Lead, Miss Nicola Billingham, will ensure that all staff are supervised where appropriate. Any staff responsible for the administration of medicine will have access to students' IHCPs.

5.4 Relevant members of staff will receive appropriate training and support from the School nurse and / or a qualified health professional, including training on the side effects of medication and what to do if they occur. If the administration of medication involves technical, medical or other specialist knowledge, appropriate individual training tailored to the individual student will be provided to appropriate staff by the School nurse and / or a qualified health professional, where appropriate.

5.5 The School Nurse and / or qualified health professional will provide written confirmation that the member of staff is proficient in the procedure which is set out in Appendix 2.

5.6 Staff must not give prescription medicines or undertake health care procedures without appropriate training. For the avoidance of doubt a first aid certificate does not constitute appropriate training in supporting students with medical conditions.

5.7 The Academy engages the School Health Team professionals to train and assist school staff in dealing with medical conditions and administering medicine.

5.8 All staff will be made aware of the terms of this policy and the Academy's arrangements for supporting students with medical conditions and their role in implementing the terms of this policy.

5.9 The Academy has guidance and protocols in place to deal with common medical conditions such as anaphylaxis, asthma, epilepsy and diabetes.

5.10 The Academy's protocols are drafted by the School Nurse / Doctor.

5.11 Copies of the protocols are available from the School Nurse / on School's website.

5.12 All new starters will be made aware of the terms of this policy and appropriate protocols during their induction.

## **6. Insurance**

6.1 E-ACT will ensure that there is adequate insurance in place which appropriately reflects the level of risk at the Academy.

6.2 All staff who are required to administer medicines or to provide support to students with medical conditions are covered by E-ACT's liability insurance. A copy of the relevant insurance policy is available to all staff on request.

## **7. Medical records and consent**

7.1 Parents of all students at the Academy are required to complete the relevant parental agreement to administer medicine (see Appendix 1) before medication is administered to their child.

7.2 Staff administering medicines will sign the records at each time a medicine is administered. Written records of all medication administered to every student are retained securely and relevant records can be provided, subject always to the law on data protection, to parents on request. These records are regularly reviewed by The Headteacher, Mrs Leanne Mahony.

## **8. Prescription and non-prescription medication**

8.1 As a general rule, staff will not administer any medication that has not been prescribed for that particular student by a doctor, dentist, nurse or pharmacist.

8.2 Staff may only administer certain non-prescription medication such as pain and fever relief if the Parents have already provided their written consent for this to happen in relation to specific medicines and only if there is a health reason to do so. Parents will be asked to sign to confirm their agreement to staff administering such medication and to confirm that the student has not suffered an adverse reaction to the medication in the past.

8.3 No student shall be given medicine containing aspirin unless prescribed for that particular student by a doctor.

### **9. Self-medication**

9.1 The Academy recognises that students should be allowed to carry their own medicines and relevant devices (such as inhalers), wherever possible or should be able to access their medicines for self-medication quickly and easily.

9.2 Following consultation between the Academy, parents and the student, a student will be permitted to store and carry their own medication if in the opinion of the Headteacher, Mrs Leanne Mahony that they are sufficiently competent to do so. This will be reflected in a student's IHCP.

9.3 The Academy will also consider the safety of other children and medical advice from the prescriber in respect of the student in reaching this decision.

9.4 Students will be made aware the medication is strictly for their own personal use and it should not be passed to any other students under any circumstances and to do so is a breach of school rules.

### **10. Administration of medication**

10.1 Where a student requires supervision to take their medication or where such medication will be administered by staff, students receiving medication should be made aware of when and where they should attend at the prescribed times during the course of the medication to receive their treatment.

10.2 All medicines supplied to the academy by parents must be provided in the original container as dispensed by the pharmacist and include the prescriber's instructions for administration. Staff administering medication will check the student's name, the name of the medication, the prescribed dose, and expiry date, method of administration, the time / frequency of administration, any side effects and the written instructions on the container before providing the medicine to the students.

10.3 If staff are in any doubt over the procedure to be followed, the parents will be contacted before action is taken.

10.4 If a student refuses their medication, Staff will record this and report to parents as soon as possible.

## **11. Storage of medication**

11.1 Medicines are always securely stored in accordance with individual product instructions.

11.2 The Academy will carry out a risk assessment to consider any risks to the health and safety of the school community and put in place measures to ensure that identified risks are managed and that medicines are stored safely.

11.3 All medicines shall be stored in the original container in which they were dispensed, together with the prescriber's instructions for

11.4 Students who do not carry and administer their own medication understand which members of staff will administer their medication.

11.5 If a student is prescribed a controlled drug, unless otherwise agreed as part of a IHCP, it will be kept in safe custody in a locked, non-portable container and only named staff and the student will have access. A record of any doses used and the amount of the controlled drug held at the academy will be maintained.

11.6 If students who are permitted to possess a controlled drug will be advised that it is an offence to pass the drug to any other person for use.

11.7 Parents should collect all medicines belonging to their student at the end of each term and are responsible for ensuring that any date-expired medication is collected from the academy.

## **12. Emergency procedures**

12.1 In the event of an emergency related to the administration of medicine, the medical lead, Miss Nicola Billingham, will be made aware that emergency services have been contacted. Continue any first aid or medical procedures being provided whilst another person summons emergency medical care. Staff should always dial 999 for the emergency services in the event of a serious medical emergency before implementing the terms of this policy and make clear arrangements for liaison with the ambulance services on the Academy site.

12.2 A checklist for contacting the emergency services can be found in Appendix 9

## **13. Off-site visits and sporting events**

13.1 The Academy actively supports all students with medical conditions to access and enjoy the same opportunities at the Academy as any other student, which includes ensuring that they are able to take an active role in school trips and sporting activities, unless it is contraindicated by a medical professional involved in a student's care (such as his or her GP).

13.2 If a student attending an off-site visit or sporting event cannot self-medicate, they will be accompanied by a member of staff who has received appropriate training to administer the medication in accordance with this policy.

13.3 All students requiring preventative medicine (particularly for sport), if sufficiently competent to self-medicate, are responsible for carrying their medication with them. If not sufficiently competent, a member of staff shall carry the medication, individually labelled.

13.4 Secure storage for medicines will be available at all short-term accommodation used by the Academy.

#### **14. Unacceptable practice**

14.1 Staff should use their discretion and training with regards to each individual student's medical needs, by reference to their IHCP and / or EHC, as appropriate.

14.2 However, staff should be aware that the following practices are generally unacceptable:

preventing access to medication and relevant devices (such as inhalers), where this is reasonably required;

assuming that all students with the same conditions require the same treatment;

frequently sending students with medical conditions home or preventing them from taking part in normal school activities, unless this is provided for in their IHCP or by their medical advisors;

sending unwell students unaccompanied to the school office or medical room;

penalising students for their attendance record, if their absences are related to their medical condition (e.g. hospital appointments);

preventing students from drinking, eating or taking toilet or other breaks when required to enable them to manage their medical condition effectively;

requiring parents, or otherwise making them feel obliged, to attend the Academy to administer medication or otherwise provide medical support to their child during the school day;

preventing students from participating in, or creating unnecessary barriers to children participating in all aspects of school life.

## 15. Complaints

If parents or students are dissatisfied with the medical support provided at the Academy they should raise these in the first instance with The Headteacher

15.1 If The Headteacher cannot resolve the issue then a formal complaint can be raised via the academy's complaint's procedure.

15.2 Only once all other attempts of resolution have been exhausted can a formal complaint be made to the Department for Education (**DfE**) where it falls within the scope of sections 496 and 497 of the Education Act 1996.

## 16. Review

16.1 This policy and its procedures will be reviewed and updated by E-ACT and The Headteacher on an annual basis.

## **Appendix 4 Template letter inviting parents to contribute to individual healthcare plan development**

Dear Parent

### **Developing an individual healthcare plan for [• name of student]**

Thank you for informing us of [• name's] medical condition. I enclose a copy of the school's policy for supporting students at school with medical conditions for your information.

A central requirement of the policy is for an individual healthcare plan to be prepared, setting out what support the each student needs and how this will be provided. Individual healthcare plans are developed in partnership between the Academy, parents, students, and the relevant healthcare professional who can advise on your child's case. The aim is to ensure that we know how to support your child effectively and to provide clarity about what needs to be done, when and by whom. Although individual healthcare plans are likely to be helpful in the majority of cases, it is possible that not all children will require one. We will need to make judgements about how your child's medical condition impacts on their ability to participate fully in school life, and the level of detail within plans will depend on the complexity of their condition and the degree of support needed.

A meeting to start the process of developing your child's individual health care plan has been scheduled for [• 00 month year]. I hope that this is convenient for you and would be grateful if you could confirm whether you are able to attend. The meeting will involve [• the following people]. Please let us know if you would like us to invite another medical practitioner, healthcare professional or specialist and provide any other evidence you would like us to consider at the meeting as soon as possible.

If you are unable to attend, it would be helpful if you could complete the attached individual healthcare plan template and return it, together with any relevant evidence, for consideration at the meeting. I [• or another member of staff involved in plan development or student support] would be happy for you contact me [• them] by email or to speak by phone if this would be helpful.

Yours sincerely
